# Acknowledge

In the process of graduation, we have received a lot of help, suggestions, and enthusiastic advice from our teachers, family and friends. We sincerely thank Aptech Education for bringing the experience as well as practical skills in the project to bring us.

We would like to thank Mr Le Thanh Nhan, a teacher of FPT Aptech for always being dedicated and professional. Without the knowledge and experience of her superior, this project will not succeed.

And we sincerely thank the families of our team members for their great enthusiasm and support during the project.

This project is also successful thanks to the cooperation of the team members. Thank you.

# Synopsis

Box Game is a online store that deals with all types of game. They started off with a company in collaboration with Ubisoft and then build up their own establishment. They have different game from different developer, special sale and promotion around the year. Many times people emails us in the website for getting the information as:

1. Minimum system requiriements for specific game ?
2. Sale details ?
3. Price list for the games ?
4. What about the refund of the game?

And many more like these. You are supposed to create a website for them with the below mentioned requirement specifications: The website is to be developed to provide certain features according to specific requirements by the management. The website is to be developed for the Windows Platform using PHP, Laravel Framework, MySQL. The site should work well in all leading browsers including Chrome, IE, Firefox etc.

# Problem Definition

## I. Introduction

The development of Information Technology and Internet help users access information, communication, transaction or shopping are so easily. With the rise of technology, Electronic Commerce has become a way to carry out the business transactions faster, more convenient, reduce cost for maintenance and employees.

With the price increasement of products with the technology development, we bring to the customer a competitive environment to get the product with lowest price.

## II. Main Functions

- Visitor can view, order game after registering and logging in to the website. The product will be ship immediately through user email.
- User can view all game as well as submit game reviews, edit profiles.
- Store admins manage the game and orders.

# Customer Requirements Specifications

## I. Customer's Specific Requirements

The website allow user register and login to become member, which can use all the function of the website like review product, pay for the order online.

## II. Functional Requirements

User:

- Input:
  - Register information of users
  - Purchase information
  - Send feedback
- Process:
  - Check register information
  - Find products information
  - Create orders
  - Save feedback
- Output:
  - Successfully registered notification
  - Cart information
  - Successfully send feedback notification

Admin:

- Input:
  - Login information of admin account
  - Add/update products request
  - Add/update category
  - View/delete user account request
- Process:

- Check login information of admin account
- Add/update products
- Add/update category
- Add/update system requirements
- Output:
  - Successfully login notification
  - Successfully add/update products
  - Successfully add/update brands
  - Successfully add/update/delete user account

## System Requirement Specification

Hardware:	Software:
Server: <ul style="list-style-type: none"> <li>- Pentium 4, 1.8 GHz or better</li> <li>- 512 MB of RAM</li> <li>- 300 MB of HDD capacities available</li> </ul> Client: <ul style="list-style-type: none"> <li>- Pentium III, 500 MHz</li> <li>- 265 MB of RAM</li> </ul>	Server: <ul style="list-style-type: none"> <li>- OS with Windows XP SP2</li> <li>- IE 5.0/Netscape 6.0</li> <li>- MySQL Server 2008 or later</li> </ul> Client: <ul style="list-style-type: none"> <li>- IE 5.0/Netscape 6.0</li> </ul>

### Development Software

- Microsoft Windows 10
- Visual Studio Code
- MySQL
- Google Chrome

### Technology

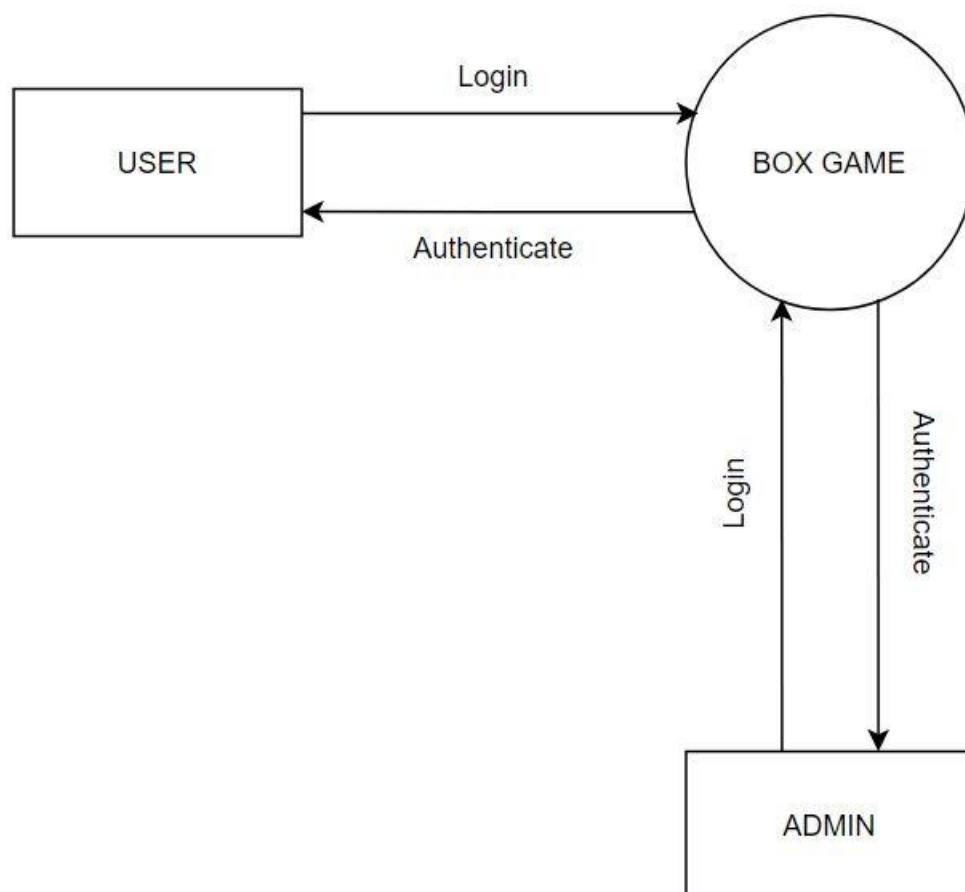

- *PHP 8.2*
- *Laravel Framework 9.2*

## XII. Admin Front Page

The screenshot displays the Admin Front Page interface. On the left is a dark sidebar menu with the 'BOX GAME' logo at the top. Below the logo, the user 'Mr. Clown' is identified. The menu includes a search bar and categories: GAME (with a 'Detail' link), CUSTOMER (with a 'Detail' link), ORDERS (with a 'Detail' link), and ADMIN ACCOUNT (with a 'Detail' link). The main content area is titled 'Profile' and shows the user's profile information: 'Mr. Clown', 'Lord of the Circus', and a profile picture. It includes statistics for Followers (0), Following (0), and Friends (0), along with a 'Follow' button. To the right of the profile is an 'Edit Profile' form with fields for Login Name, Email, Name (Display Name), and Picture. There are 'Submit' and 'Reset' buttons at the bottom of the form. A checkbox for 'I agree to the terms and conditions' is also present. Below the profile and form is a large grey area labeled 'Free Space, put whatever you like in here'. At the bottom of the page, there is a copyright notice: 'Copyright © 2022 Group 4 - T1.2112.E0. All rights reserved.' and the version number 'Version 1.0.0'.

## XV. Admin Add Game

The screenshot shows the 'New Game' form in the BOX GAME admin interface. The form is divided into several sections:

- Game Details:** Includes fields for Game Name, Price, Sale, Description, Release Date, Developer, Developer Website, Picture Icon, and Gameplay Image.
- System Requirements:** Includes fields for OS, Version, Chipset, Memory, VGA, and Storage.
- Catalog:** A list of game genres with checkboxes: Adventure, Crafting, Family, FPS-Shooter, Garden, Horror, and MOBA.

The form has 'Submit' and 'Reset All' buttons at the bottom. The sidebar on the left shows the user 'Mr. Clown' and various navigation options like GAME, CUSTOMER, ORDERS, and ADMIN ACCOUNT.

**Description** : Add new game to database

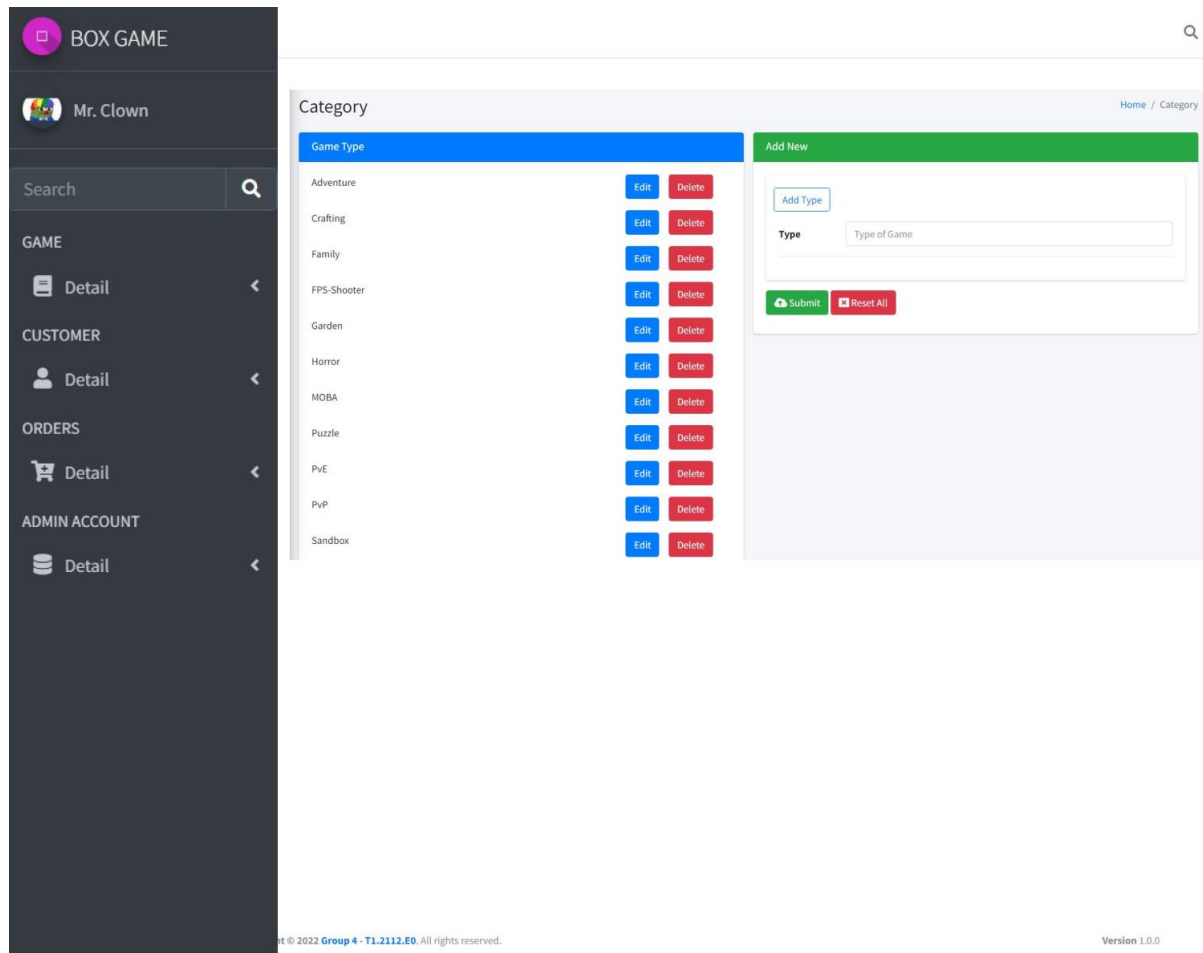

**From** : Side bar, game section

**To** : After submit form, if success return to detail page of new game, or return to create game form with error message
